# ETH Alumni Shanghai Network

YOUR PLATFORM IN CHINA

FOCUSED ON BUSINESS WITH TECHNOLOGY AND INNOVATION

## Why should you join us?

- Because you want to be linked with influential people with a common university background in Shanghai.
- Because you want to stay informed about latest developments across industries through our meetings and events.
- Because you want to stay in touch with famous universities and corporations.
- Because you want a channel that can help you to develop your career in China.
- Because you want to access a pool of highly qualified talents.
- Because in China you always need somebody's support.

## Who can join?

Any ETH Alumni is welcome to join. To qualify as an ETH Alumni you typically have a university degree with at least two semesters absolved at the ETH Zurich (studying or teaching). We also welcome members of affiliate networks and students to join with a special membership. Our ETH HQ has the final word on admission. For further details kindly visit our website or send us an email.

## How to join?

Simply register on our website and we will contact you soon after.

## What does it mean to be a member?

Our network is a "living network", where our members regularly meet, discuss and actively propose activities and ways to improve our group. As such we welcome your contribution and expect to see you at most of our gatherings. Our activities are tailored to the needs of busy and fast paced Shanghai citizens. Together we organize regular informal get-together, workshops, visits to companies and schools and several major events in cooperation with other networks and institutions.

## How much does it cost?

The membership fees are regulated by the global ETH Alumni association statutes. Currently, fees for 2009 are 70 CHF/year (400 RMB/year). If you are not a member yet and you register before the 31.12.2008 you will enjoy a free membership for the year 2009.

## How to join?

Simply register on our website and we will contact you soon after.
