## **Strategic Emerging Industries**

New energy, new materials, new power automobile, civil aviation, and biological medicine.

## **Poyang Lake Eco-economic Zone**

The Poyang Lake is the largest freshwater lake in China. On December 12th 2009 the State Council approved the Poyang Lake Eco-economic Zone Plan as part of its National Strategy. This plan basically includes all three aspects of a sustainable development: environmental protection, social aspects and economic growth. The Poyang Lake Eco-economic Zone is located in the North of the province covering a total area of 51,200 sq km (app. 30 % of the province). The area covers three large cities and 38 counties with a population of more than 20 million inhabitant (app. half of the province's population). The investment in this economic zone accounts for more than half of the provincial total in the 12<sup>th</sup> Five-year plan.
