

Invitation

Sino-Swiss Economic & Trade Forum

with

H.E. CHEN Deming
Minister of Commerce, the Ministry of Commerce of
the People's Republic of China

H.E. Doris LEUTHARD
Federal Councillor, Vice-President of the Federal Council
and Head of the Federal Department of Economic Affairs

and with a high-ranking official & business delegation

Thursday, February 26th 2009

8:00 – 11.30 a.m.

The Dolder Grand
Kurhausstrasse 65, Zurich

Organized by:

China Association of Enterprises with Foreign Investment (CAEFI)
The Swiss-Chinese Chamber of Commerce (SCCC)

Supported by:

The Ministry of Commerce of the People's Republic of China (MOFCOM)
The Federal Department of Economic Affairs (FDEA)

Co-organizers:

Visit of H.E. CHEN Deming in Switzerland Thursday, 26th February 2009 in Zurich

As announced during the visit of Premier WEN Jiabao in Switzerland end of January 2009, H.E. CHEN Deming, Minister of Commerce of the People's Republic of China will lead a high-ranking official and business delegation to Europe including Switzerland from February 25th – March 2nd 2009.

The delegation wishes to express with this visit its sincere effort to further confidence in the bilateral economic and trade relations and to contribute to the reduction of trade deficits, to fight the economic crisis, to prevent protectionism and to lay the grounds for an open economy.

Swiss enterprises are invited to attend the Sino-Swiss Economic & Trade Forum to learn more about the possibilities for investment and trade and to use the platform to meet representatives of Chinese companies from the following business areas:

- Energy & Environmental Technology
- Machinery & Construction
- Chemicals, Pharmaceuticals & Health Care
- Automotive Industry
- Services

Don't miss this unique event and the possibility to assess your business opportunities with more than 100 representatives of Chinese companies.

Programme

Presentations in Chinese and English (with simultaneous translation)

a.m.

07:20 Registration

ABB Company Profile

ABB is a global leader in power and automation technologies that enable utility and industry customers to improve their performance while lowering environmental impact. The ABB Group of companies operates in around 100 countries and employs about 120,000 people. ABB focuses on two core businesses: Power Technologies and Automation Technologies.

ABB's technology competence, broad application know-how and global presence offer customers easy access to leading electrical engineering and industry automation solutions. Innovation and quality are key characteristics of its product and service offering.

The ABB vision is to be recognized as the top global engineering company in terms of market impact, growth and profitability, value creation, sustainability and ethical behaviour.

ABB in China

ABB's relationship with China dates back to 1907, when it delivered the country's first steam boiler. In 1974, ABB's China operation was established in Hong Kong. This was followed by its first permanent office in Beijing in 1979. In 1994, ABB decisively moved its China headquarters to Beijing. In 1995, ABB's holding company, ABB China Ltd., was formally established.

After years' fast growth, ABB has established a full range of business activities in China, including R&D, manufacturing, sales and services, with more than 12,800 employees, 26 joint ventures and wholly owned companies, and an extensive sales and service network across 38 cities. In early 2006, ABB China was rated one of the 10 "favorite employers" by university students.

In China, ABB has participated in many key state projects, such as the 3 Gorges power plant and power transmission from 3 Gorges to Shanghai, Changzhou, and Guangdong, the South to North water diversion project, the west development project of Qinghai-Tibet Railway, Beijing Olympic Games projects including the Beijing International Airport expansion project, substation and metro construction, etc. Besides, ABB also provided power equipment to Lianyungang Nuclear Power Plant, water quality monitoring and analysis systems to Chinese environmental authorities, and power or automation technology solutions to Asia's largest petrochemical complex SECCO in Shanghai, the Great Hall of the People, Shanghai and Guangzhou Metro, Shanghai GM, Baosteel, etc.

ABB in Switzerland

ABB Switzerland is headquartered in Baden, employs some 6300 people from 80 countries and benefits from the network, market and customer relationships, as well as the engineering expertise of the globally active ABB Group.

ABB Switzerland's core competences are the transmission and distribution of electricity. The company enables its utility and industry customers to utilize electric power efficiently and to improve productivity sustainably. One of the group's seven research centers is located in Baden-Daettwil.

In 2008 ABB Switzerland generated sales of 4 billion Swiss francs, 22 percent more than in 2007. Orders received rose to 4.4 billion Swiss francs.

Customer: China Nuclear Power Engineering Company Ltd. (CNPEC)

A Letter of Intent for the supply of Generator Circuit Breakers for Ningde and Yangjiang Nuclear Power Station is signed between ABB Switzerland Ltd. and CNPEC.

CNPEC is the first company in China for nuclear power plants providing the following services:

- Contracting, construction, consultation management and supervising of projects
- Technical service of engineering construction and consultation
- Import & export of commodities and technologies
- Purchase & sale of electrical power equipment and materials

26. Februar 2009

Hintergrundinformation

Strategische Partnerschaft zwischen Holcim Ltd und Huaxin Cement seit 1999

Holcim Ltd und Huaxin Cement Company Limited (HCC) sind 1999 eine strategische Partnerschaft eingegangen. Heute ist Holcim mit einem Anteil von 39,9 Prozent der grösste Einzelaktionär von HCC.

Am 26. Februar 2009 haben Holcim und HCC die Partnerschaft mit einem Rahmenabkommen über technische Unterstützung sowie die Lieferung von Technologie und Anlageteilen für die kommenden zwei Jahre weiter vertieft. Um das ausserordentliche, strategische Wachstum von HCC zu unterstützen, wird Holcim die Unterstützung der Gesellschaft im Bereich alternative Brennstoffe und Rohmaterialien weiter ausbauen. Das Abkommen wurde im Beisein von Chen Deming, Wirtschaftsminister der Volksrepublik China, und Bundesrätin Doris Leuthard, Vizepräsidentin des Bundesrates und Vorsteherin des Eidgenössischen Volkswirtschaftsdepartements, am Sino-Swiss Economic & Trade Forum in Zürich unterzeichnet.

Mit einer Jahreskapazität von 38 Millionen Tonnen Zement gehört HCC zu den fortschrittlichsten Zementgruppen Chinas. Die Gesellschaft verfügt ausschliesslich über moderne Produktionskapazitäten. HCC hat in den letzten Jahren im Einklang mit der dynamischen Entwicklung des chinesischen Baustoffmarktes eine konsequente Expansionspolitik verfolgt. Die Gesellschaft hat viele Ausbauprojekte in den Bereichen Zement, Zuschlagstoffe und Transportbeton in Ausführung oder in Planung.

Der Heimmarkt von HCC erstreckt sich entlang des Jangtse-Flusses in der zentralchinesischen Provinz Hubei. Die Gesellschaft ist zudem in den Provinzen Henan, Hunan, Yunnan, Jiangsu und Schanghai präsent. Wuhan, die Hauptstadt von Hubei, verbindet die fortschrittlichen Küstenprovinzen um Schanghai mit den zentralen und westlichen Teilen des Landes. Der Zementmarkt von Zentralchina mit über 350 Millionen Tonnen pro Jahr entspricht fast 25 Prozent des chinesischen Zementkonsums.

China ist der weltweit grösste Zementmarkt, der fast die Hälfte der weltweiten Zementproduktion verbraucht. In diesem dynamischen Wachstumsmarkt, verbunden mit technologischem Umbau und Restrukturierung der chinesischen Zementindustrie, eröffnen sich für HCC attraktive Wachstumsmöglichkeiten. HCC wird ihre führende Rolle als moderner Zementproduzent in China mit Unterstützung von Holcim weiter festigen und ausbauen.

* * * * *

Holcim ist einer der weltweit führenden Anbieter von Zement und Zuschlagstoffen (Schotter, Kies und Sand) einschliesslich weiterer Geschäftsaktivitäten wie Transportbeton und Asphalt inklusive Serviceleistungen. Der Konzern hält Mehrheits- und Minderheitsbeteiligungen in mehr als 70 Ländern auf allen Kontinenten.

Huaxin Cement Co. Ltd. ist ein führendes Zementunternehmen in China mit einer hundertjährigen Geschichte. Huaxin ist einer der landesweit tätigen, stark durch die Regierung unterstützten Zementhersteller.

Background information

Strategic Partnership between Holcim Ltd and Huaxin Cement since 1999

Holcim Ltd and Huaxin Cement Company Limited (HCC) entered into a strategic partnership in 1999. Today, Holcim is the single largest shareholder in HCC holding a stake of 39.9 percent.

On February 26, 2009, Holcim and HCC further deepened the partnership with a frame agreement for technical service, technology and new equipment supplies covering the next two years. In order to cater to the exceptional strategic expansion of HCC, Holcim will intensify its support of the company in the area of alternative fuels and raw materials. The agreement was signed in the presence of H.E. Chen Deming, Minister of Commerce, the Ministry of Commerce of the People's Republic of China, and H.E. Doris Leuthard, Federal Councillor, Vice-President of the Federal Council and Head of the Federal Department of Economic Affairs, at the Sino-Swiss Economic & Trade Forum in Zurich.

With an annual cement capacity of 38 million tonnes HCC is one of China's most progressive cement groups. The company disposes of only modern production facilities. In recent years, HCC has followed a strategy of expansion, in line with the dynamic development of the Chinese building materials market. The company has many expansion projects in cement, aggregates and ready-mix concrete under construction or being planned.

HCC's home market is along the Yangtze river in the central Chinese province of Hubei. In addition, the company is present in the provinces of Henan, Hunan, Yunnan, Jiangsu and Shanghai. Wuhan, the capital of Hubei, connects the advanced coastal provinces around Shanghai with the central and western part of the country. The cement market of central China is more than 350 million tonnes which corresponds to almost 25 percent of China's cement consumption.

China is the world's largest cement market consuming almost half of the world's cement production. This dynamic growth market coupled with the on-going technological transformation and restructuring of the Chinese cement industry opens up attractive growth opportunities for HCC. HCC with Holcim's support will continue to strengthen and extend its leading role as a modern cement producer in China.

* * * * *

Holcim is one of the world's leading suppliers of cement and aggregates (crushed stone, gravel and sand) as well as further activities such as ready-mix concrete and asphalt including services. The Group holds majority and minority interests in more than 70 countries on all continents.

Huaxin Cement Co., Ltd. is a leading cement enterprise in China with one hundred years' history, and is one of the nation-wide cement manufacturing groups receiving strong support from the government.

背景材料

豪瑞集团和华新水泥自 1999 年开始的战略合作伙伴关系

豪瑞集团和华新水泥股份有限公司在 1999 年确立了战略合作伙伴关系。今天，豪瑞集团是华新水泥的最大单一股东，持有 39.9% 的股份。

2009 年 2 月 26 日，豪瑞集团和华新水泥签署了一份框架协议，进一步深化双方的合作关系。协议规定了今后两年豪瑞集团将向华新水泥提供技术服务、技术和新设备等。为了支持华新水泥超乎寻常的战略增长，豪瑞集团将进一步加强其对华新水泥的支持，特别是在替代性燃料和原材料方面。中国商务部部长陈德铭阁下和瑞士联邦副主席、联邦经济部长洛依特哈德女士，在苏黎世举办的中瑞经贸合作发展论坛上见证了协议的签署。

华新水泥年产能力为 3800 万吨水泥，是中国最先进的水泥集团之一。该集团完全使用现代化的生产设施。近年来，伴随着中国建筑材料市场的迅猛发展，华新水泥推行积极扩张的战略。公司在水泥、骨料和预拌混凝土生产的拓展方面有许多在建和筹建项目。

华新的主要市场位于中国中部省份湖北省长江流域。另外，公司在河南、湖南、云南、江苏和上海都有投资。而作为湖北省会城市的武汉，连接上海周边发达的沿海省份与中国中西部内陆地区。中国中部水泥市场的容量在 3.5 亿吨以上，相当于中国水泥消费量的 25%。

中国是世界最大的水泥消费市场，其消费能力占世界水泥总产量的近一半。这一充满活力、快速增长的市场，在水泥行业技术改造和结构调整的过程中，为华新提供了富有吸引力的发展机会。华新在豪瑞的支持下，将继续增强和扩展其作为中国领先的现代化水泥生产商的地位。

豪瑞是世界领先的水泥和骨料（碎石，砂砾和沙）供应商之一，在预拌混凝土和沥青等业务方面也居于领先地位。集团在各大洲 70 多个国家拥有控股或参股权益。

华新水泥股份有限公司是中国水泥行业具有百年历史的龙头企业，也是政府重点扶持的全国性水泥企业集团之一。

PRESS RELEASE

CENTURY and SHANGHAI GRACING officialise their distribution partnership

Zurich, 26 February 2009 – CENTURY, the Swiss manufacturer of sapphire watches and jewellery is proud to formalize today its partnership with the Chinese distributor, Shanghai Gracing Group, by signing a new agreement aimed to intensify the collaboration between the two companies.

This exclusive distribution agreement has been signed on February 26th during the Sino-Swiss Economic & Trade Forum in Zurich by Mr. Philip W. A. Klingenberg, CENTURY Time Gems Ltd. CEO, and Mr. Xingyi Zhu, General Manager of Shanghai Gracing Group Co. Ltd.

Shanghai Gracing Group, key player on the watch scene in China, is therefore the exclusive distributor of the CENTURY products in the country. Since 2006, it has supported the Swiss brand in setting up a distribution network. Last year, six CENTURY boutiques have already been inaugurated in prestigious shopping locations.

This agreement further ensures a long-lasting cooperation between the two companies. Shanghai Gracing strongly affirms its determination to assist the brand in expanding its development. Many projects will be finalized towards the enforcement of intensive marketing programs, the organisation of sales trainings and the setting-up of a local CENTURY after-sales service division. In terms of distribution network, Shanghai Gracing plans to open 50 CENTURY boutiques over the next few years including 10 store openings in 2009.

CENTURY CEO, Mr. Klingenberg, is delighted by a qualitative and constructive collaboration and is looking forward to combine the CENTURY know-how in high- end watches with the great experience in the watch business of Shanghai Gracing Group. This day represents a significant step in the growth of CENTURY in China.

CENTURY TIME GEMS LTD.
SWISS MANUFACTURER OF SAPPHIRES WATCHES & JEWELLERY
FH MEMBER 07/0125

History

The firm of CENTURY was established in Bienne in 1966 by Hans-Ulrich Klingenberg, whose vision it was to combine an unusual method of manufacture with timeless elegance and a technically perfect design - a vision that led to watches made of sapphire being produced for the first time in the world. CENTURY is still to this day an independent family company.

The company today

CENTURY, as an independent family company, is headed by Philip W.A. Klingenberg, the son of the founder. The own manufacturing workshop, including the marketing, sales, and other offices, is now located in Nidau, near Bienne, in the heartland of the Swiss watch industry, and employs 60 people. Its brand's subsidiary in Tokyo has been founded in 1991. Every year it produces about 12,000 watches made of sapphire.

Distribution

CENTURY watches are sold through an exclusive network of 250 authorised watch and jewellery dealers mainly located in Asia and Europe. End of 2008, CENTURY counts 10 flagship stores around the world.

Philosophy

CENTURY watches are hand-crafted pieces of jewellery designed for a discriminating clientele. The high level of craftsmanship that goes into polishing precious stones is combined with the precision and quality for which Swiss watch-making is justly renowned. The focus of the production process is the "manufacturing" in the original sense of the word: the watches are carefully made by hand in the firm's own workshop in Nidau, and only with the very finest materials.

Product

CENTURY timepieces are both timeless jewellery of great value and also technical masterpieces. Ten years after the launch PrimeTime, Empire and Dragon Stone remain brand's emblematic models.

CENTURY has registered over 100 patents worldwide for its new technologies and construction process. The unique monolith system consists of the sapphire case ring and the sapphire face that are inseparably joined together by a chemical process, and this makes the case the basis for every CENTURY watch.

The sapphire case blank thus created is ground and polished by hand with diamond-faced tools to give it the required shape. Only the finest materials are used in manufacturing such as sapphire, diamond, platinum, gold, mother-of-pearl, and Chinese lacquer. Every CENTURY watch is water-resistant down to a depth of 100 metres, and is fitted with a high-precision Swiss quartz movement or, if so required, with a hand-wound or an automatic movement. CENTURY grants a three-year international guarantee on all its watches.

Product lines

The Collection is made up of three product lines: Master Imperial, Precious Elegance, and Contemporary Timepiece. Each meets the requirements of its discriminating clientele. In addition to about 120 references from 20 model lines, CENTURY also creates exclusive single pieces individually fulfilling customers' requirements. In 2004, CENTURY has launched TEMPTATION, its first jewellery line.

Glencore / Chinalco Corporate Overview

Glencore International AG

- Glencore International AG is one of the world's largest suppliers of a wide range of commodities and raw materials to industrial consumers.
- These commodities originate either from Glencore's directly or indirectly owned production assets, or are secured by Glencore from third parties, or they benefit from the refining, processing or marketing expertise of Glencore.

- It is the world's second largest alumina producer and the third largest primary aluminum producer.
- With Chinalco being the holding company, Aluminum Corporation of China Limited (CHALCO) is listed on the New York, Hong Kong and Shanghai stock exchanges.
- CHINALCO is oriented towards a global presence and committed to the strategic positioning of becoming an international polymetallic mining company.
- CHINALCO operates in the following areas: investment and operation management of state-owned assets, bauxite mining, alumina refining, smelting, processing and trading of aluminum; mining, smelting, processing and trading of rare metals and rare earth; mining, smelting, processing and trading of copper and other nonferrous metals; related engineering and technological services.
- CHINALCO promotes reform and development and actively deliver social responsibilities to build a resources-efficient, environment-friendly company with safe production.

ENDS

Cotton Trading: Paul Reinhart AG and Chinatex Corporation

Paul Reinhart AG, Winterthur

Paul Reinhart AG was founded in Winterthur in 1788 at a time when Switzerland was the largest cotton importer in continental Europe. Its activities consisted mainly in imports of raw cotton, trading of cotton yarns and exports of cotton cloth from Switzerland. The company is privately owned and is today managed by the 7th generation, Jürg Reinhart and Dr. Thomas Reinhart. At its headquarter in Winterthur, the staff amounts to 65.

Paul Reinhart AG is one of the leading cotton traders worldwide and is nowadays exclusively active in trading of raw cotton. In 2008, 64% of total sales went to Asia, with China being the most important destination for cotton imports. Other destinations were Turkey, Western Europe, Eastern Europe, the CIS countries and South America. 36% of the sold cotton was sourced in Africa. Other major origins were Central Asia, Brazil, India and the Mediterranean countries.

Paul Reinhart AG and China

Paul Reinhart AG has been an active partner of China since the 1970ies selling cotton from a large number of origins. In the beginning of the cooperation, Chinatex Corporation was the only Chinese company being allowed to import foreign growths.

Paul Reinhart AG disposes of two representative offices in Beijing and Shanghai. They are in charge of importing raw cotton. Furthermore, the company has recently established the Wholly-Owned Foreign Entity (WOFE) Reinhart (Beijing) Trading Co., Ltd. which is in the process of becoming active in the domestic cotton trade.

China is Paul Reinhart AG's largest single country of destination. In 2008 the share of total sales amounted to 18.3%. The company sold to over 100 individual customers.

Chinatex Corporation, Beijing

Chinatex Corporation was established in 1951 and is engaged in business ranging from trade and production of textile raw materials, textiles to oil and oilseeds. The company's annual turnover is over USD 4 billion. Chinatex Corporation is the largest trader of cotton and soybean. The business of raw materials and cotton spinning includes the trading and production of cotton, wool, chemical fibres, yarn and grey fabrics.

One of the subsidiaries, Chinatex Cotton Import and Export Corporation, is an active trader of both domestic and foreign cotton.

Press release February 26, 2009

Sino-Swiss Economic and Trade Forum: Cotton contract in the amount of USD 12 million concluded between Chinatex Corporation and Paul Reinhart AG

This is to inform you that in the context of the Sino-Swiss Economic and Trade Forum Chinatex Corporation and Paul Reinhart AG have concluded a frame contract in the amount of USD 12 million for the delivery of West African cotton.

Chinatex Corporation, Beijing was established in 1951. The company is engaged in trading and producing raw materials used in textiles, yarn, fabrics, oil and oilseeds. Chinatex Corporation's annual turnover is over USD 4 billion.

Paul Reinhart AG, headquartered in Winterthur, is one of the world's largest cotton traders. The privately owned company was founded in 1788 and is managed by the 7th generation. Paul Reinhart AG has representation offices in Beijing and Shanghai.

The two companies are doing business together since the 1970ies for cotton deliveries from a wide range of origins.

Fakten Burgener AG Visp

Geschäftszweck

Die Burgener AG ist ein KMU Betrieb welcher Maschinen entwickelt, herstellt und verkauft, die verschiedene Gebinde wie z.B. Säcke, Kartons, Fässer usw. befüllen und verschliessen. Die Maschinen sind speziell auf die Chemie- und Pharmaindustrie konzipiert und werden im In- und Ausland verkauft.

Kennzahlen

Gründungsjahr:	1966
Aktienkapital:	CHF 200'000.-
Umsatz 2008:	CHF 3.5 Mio.
Angestellte:	19 Mitarbeiter (inkl. 3 Lehrlinge)

Unsere Produkte

Die von der Burgener AG konzipierten Maschinen sind speziell auf den Bereich der Chemie- und Pharmaindustrie sowie auch Nahrungsmittelindustrie zugeschnitten, welche ein absolut sauberes und zuverlässiges Abfüllen und Verschliessen der Kunststoff-Verpackungen (Polyethylen, Polyamid, Polypropylen, usw.) erfordert.

Die Stärke der Burgener AG liegt in Ihrem allseits anerkannten Know-how in Bezug auf die Verschweisstechnik. Diese Technik ist nicht durch Patente oder Lizenzen geschützt.

Die Verbindung zwischen der Abfüll- und Verpackungstechnik ist ein zusätzlicher Vorteil gegenüber den Mitbewerber.

Unser Markt

Endbenutzer einer Burgener - Maschine sind internationale Unternehmen der Pharma- und Chemiebranche (wie z.B. LONZA, BASF, SANDOZ, ROCHE, MERCK usw.) aber auch Unternehmen aus der Lebensmittelbranche (NESTLE, MIGROS, GIVAUDAN usw.).

Die Produkte dieser Kunden sind, insbesondere für die Pharmabetriebe, Produkte mit sehr hoher Wertschöpfung und entsprechend hohem Preis

2008 wurde 40% bis 45% vom Umsatz in der Schweiz erwirtschaftet.

Das wichtigste Exportland ist für uns Deutschland sowie andere EU – Staaten.

Der Handel mit China wird für uns zunehmend wichtiger. Für einen KMU – Betrieb sind gute Kooperationen mit den geeigneten Partner sehr wertvoll.
