

## News release

### Swiss Re reinsures Guangdong, China's most populated economic hub, against natural disaster risk; Typhoon Haima triggers first payout

- Pilot insurance programme covers Guangdong province against losses of up to USD 350 million from tropical cyclone and excessive rainfall
- Guangdong, which is heavily exposed to natural disasters, is responsible for over USD 1 trillion of China's GDP
- Innovative insurance uses meteorological data to allow faster payouts; super-typhoon Haima triggered first payout to the city of Shanwei less than a week after the disaster struck
- Pilot was developed in response to the Chinese Central Government's imperative of building a natural catastrophe insurance system
- This is one of the two largest natural disaster protection schemes ever established in China; with Guangdong closely following the one for Heilongjiang province announced in early August 2016

Beijing, 28 October 2016 – Swiss Re has entered into an agreement as sole reinsurer to protect seven prefectures of Guangdong province, China, in partnership with local insurers led by the People's Insurance Company of China (PICC) in 2016. The pilot helps protect China's most prominent economic hub against the financial impacts of natural disaster risk and the first payout was already triggered after super-typhoon Haima made landfall in the city Shanwei on 21 October 2016. The program will be rolled out in a total 10 prefectures by the end of this year.

The pilot programme offers insurance cover for a maximum value of USD 350 million, and is expected to be adjusted and renewed annually. It uses rainfall and tropical cyclone wind speed indices to trigger policy claims, ensuring fast payout.

Compared with traditional re/insurance, the speed of parametric insurance payouts will allow governments to access ready capital for managing emergencies at the times when it is most needed.

This is the second pilot programme to protect the balance sheets of provincial governments in China against the economic impacts of major disasters. It complements the previously announced reinsurance protection scheme in Heilongjiang province, announced on 3 August 2016 this year, which focuses primarily on poor rural communities. Swiss Re developed both

programmes in response to the Chinese Central Government's imperative to build a Disaster Insurance System. The schemes could serve as a model to insure other provinces in the country.

Martyn Parker, Chairman of Swiss Re Global Partnerships said: "Guangdong is an important industrial production centre and highly exposed to natural disasters, particularly typhoon and flood. A major disaster is not just devastating for the lives and livelihoods of local people, but is also likely to affect the longer-term economy of the region. Guangdong's move to put measures in place before disasters strike has already proven its worth, when super-typhoon Haima triggered a claim. The city of Shanwei has received a payout from the insurance company less than a week after the typhoon struck."

John Chen, Swiss Re's Head of Reinsurance China and China Country President, said: "Product innovation based on international experience has enabled the success of the Guangdong case. The strong partnership between the government, PICC, and Swiss Re has been pivotal in delivering this innovative scheme. We hope the Guangdong and Heilongjiang models will also serve to benefit other provinces in China."

#### Notes to Editors

##### Swiss Re

The Swiss Re Group is a leading wholesale provider of reinsurance, insurance and other insurance-based forms of risk transfer. Dealing direct and working through brokers, its global client base consists of insurance companies, mid-to-large-sized corporations and public sector clients. From standard products to tailor-made coverage across all lines of business, Swiss Re deploys its capital strength, expertise and innovation power to enable the risk-taking upon which enterprise and progress in society depend. Founded in Zurich, Switzerland, in 1863, Swiss Re serves clients through a network of about 70 offices globally and is rated "AA-" by Standard & Poor's, "Aa3" by Moody's and "A+" by A.M. Best. Registered shares in the Swiss Re Group holding company, Swiss Re Ltd, are listed in accordance with the International Reporting Standard on the SIX Swiss Exchange and trade under the symbol SREN. #### Cautionary note on forward-looking statements

Certain statements and illustrations contained herein are forward-looking. These statements

(including as to plans, objectives, targets, and trends) and illustrations provide current expectations of future events based on certain assumptions and include any statement that does not directly relate to a historical fact or current fact.

Forward-looking statements typically are identified by words or phrases such as “anticipate”, “assume”, “believe”, “continue”, “estimate”, “expect”, “foresee”, “intend”, “may increase”, “may fluctuate” and similar expressions, or by future or conditional verbs such as “will”, “should”, “would” and “could”. These forward-looking statements involve known and unknown risks, uncertainties and other factors, which may cause the Group’s actual results of operations, financial condition, solvency ratios, liquidity position or prospects to be materially different from any future results of operations, financial condition, solvency ratios, liquidity position or prospects expressed or implied by such statements or cause Swiss Re to not achieve its published targets. Such factors include, among others:

- instability affecting the global financial system and developments related thereto;
- deterioration in global economic conditions;
- the Group’s ability to maintain sufficient liquidity and access to capital markets, including sufficient liquidity to cover potential recapture of reinsurance agreements, early calls of debt or debt-like arrangements and collateral calls due to actual or perceived deterioration of the Group’s financial strength or otherwise;
- the effect of market conditions, including the global equity and credit markets, and the level and volatility of equity prices, interest rates, credit spreads, currency values and other market indices, on the Group’s investment assets;
- changes in the Group’s investment result as a result of changes in its investment policy or the changed composition of its investment assets, and the impact of the timing of any such changes relative to changes in market conditions;
- uncertainties in valuing credit default swaps and other credit-related instruments;
- possible inability to realise amounts on sales of securities on the Group’s balance sheet equivalent to their mark-to-market values recorded for accounting purposes;
- the outcome of tax audits, the ability to realise tax loss carryforwards and the ability to realise deferred tax assets (including by reason of the mix of earnings in a jurisdiction or deemed change of control), which could negatively impact future earnings;
- the possibility that the Group’s hedging arrangements may not be effective;
- the lowering or loss of one of the financial strength or other ratings of one or more Swiss Re companies, and developments adversely affecting the Group’s ability to achieve improved ratings;
- the cyclical nature of the reinsurance industry;
- uncertainties in estimating reserves;
- uncertainties in estimating future claims for purposes of financial reporting, particularly with respect to large natural catastrophes, as significant uncertainties may be involved in estimating losses from such events and preliminary estimates may be subject to change as new information becomes available;
- the frequency, severity and development of insured claim events;
- acts of terrorism and acts of war;
- mortality, morbidity and longevity experience;
- policy renewal and lapse rates;
- extraordinary events affecting the Group’s clients and other counterparties, such as bankruptcies, liquidations and other credit-related events;
- current, pending and future legislation and regulation affecting the Group or its ceding companies and the interpretation of legislation or regulations;
- legal actions or regulatory investigations or actions, including those in respect of industry requirements or business conduct rules of general applicability;
- changes in accounting standards;
- significant investments, acquisitions or dispositions, and any delays, unexpected costs or other issues experienced in connection with any such transactions;
- changing levels of competition; and
- operational factors, including the efficacy of risk management and other internal procedures in managing the foregoing risks.

These factors are not exhaustive. The Group operates in a continually changing environment and new risks emerge continually. Readers are cautioned not to place undue reliance on forward-looking statements. Swiss Re undertakes no obligation to publicly revise or update any forward-looking statements, whether as a result of new information, future events or otherwise.
